

## STORY BOARD

### Greater Connect Digital Artwork

Journey of the project, these symbols represent the journey to build the Great Eastern Hwy Bypass connecting Roads and communities. Around each journey are symbols and patterns that identify the community and culture that are impacted by these roadwork upgrades

These patterns represent the land, the country, in which the road will pass, the hills are on the horizon and the bushland surrounding this area of the bypass.

The hands and circles around the hands represent the teams hard work and working together with communities and Aboriginal business on this country.
